

How to ecologically replace things ?

By Sára Kušnírová & Miriam Nemčíková

Class: kvarta

About Erasmus+ project

Our school is involved in the project Erasmus+

Topic of Erasmus+ project is Save the planet

Last week, we had a lecture about carbon footprint

We were talking about wasting food, about fast fashion and about microplastics

Shop without packaging

- In this shop, we can buy things without packaging
- In this shop, we put things into reusable bags and containers

How to ecologically replace things ?

PLASTIC BOTTLE

ECO GLASS BOTTLE

If we use a plastic bottle, we should use this bottle several times

FOOD PACKAGING

You should use a cloth or wax package for food, because the plastic or paper package may tear and new waste will be generated

PLASTIC BAG

NET FOR FRUIT AND VEGETABLES

You should use a cloth package for food, because the plastic or paper package may tear and new waste will be generated

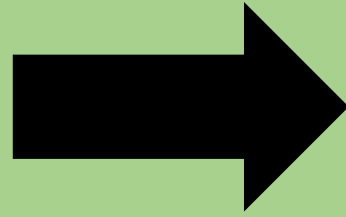

PLASTIC BAG

CLOTH BAG

JAM CUP

We shouldn't throw out glass package, but we should use it for home made jams or pickles

SPONGE FOR DISHES

Ecology sponge for dish is of degradable material

COTTON WOOL STICK OF PLASTIC

COTTON WOOL STICK OF WOOD

Cotton wool stick of the wood or paper are faster decompose

MAKE-UP REMOVING TAMPONS

Eco make - up removing tampons can be washed and normal make - up removing tampons can be throw out after one use

BATTERY

RECHARGEABLE BATTERY

Rechargeable batteries are for multiple uses
